A CEDNF is defined as a horse that did not finish his last race in 2009 and did not return to workout or start through 6/1/2010.

* Note that due to the recency of the DNF, additional horses will end up running or working out again during 2010; therefore, one would expect this number to decrease.

** Re-analysis of 2008 CEDNFs using an extended date range for run-back/work out through 6/1/10 revealed 74 fewer CEDNFs.

*** Re-analysis of 2007 CEDNFs using an extended date range for run-back/work out through 6/8/09 revealed 70 fewer CEDNFs.
